

Aim:

Write a program to copy contents of one file into another file. Follow the instructions given below to write a program to copy the contents of one file to another file:

- Open a new file " SampleTextFile1.txt " in write mode
- Write the content onto the file
- Close the file
- Open an existing file " SampleTextFile1.txt " in read mode
- Open a new file " SampleTextFile2.txt " in write mode
- Copy the content from existing file to new file
- Close the files
- Open the copied file in read mode
- Read the text from file and print on the screen
- Close the file

Source Code:**CopyFile.c**

```
#include <stdio.h>
void main() {
    FILE *fp, *fp1, *fp2;
    char ch;
    fp = fopen("SampleTextFile1.txt","w"); //Open a new file in write mode
    printf("Enter the text with @ at end : ");
    while ((ch=getc(stdin))!='@') { // Read loop till get @ at the end
        putc(ch, fp);
    }
    putc(ch, fp);
    fclose(fp);
    fp1 = fopen("SampleTextFile1.txt","r"); // Open an existed file in read mode
    fp2 = fopen("SampleTextFile2.txt","w"); // Open a new file in write mode
    while ((ch=getc(fp1))!='@') { // Repeat loop till get @ at the end of existed file
        putc(ch, fp2);
    }
    putc(ch, fp2);
    fclose(fp1); // Close the existed file
    fclose(fp2); // Close the copied file
    fp2 = fopen("SampleTextFile2.txt", "r"); // Open the copied file in read mode
    printf("Copied text is : ");
    while((ch=getc(fp2))!='@') { // Repeat loop till get @ at the end of copied file
        putchar(ch);
    }
    printf("\n");
    fclose(fp2); // Close the copied file
}
```

Execution Results - All test cases have succeeded!

Test Case - 1
User Output
Enter the text with @ at end : CodeTantra started in the year 2014@
Copied text is : CodeTantra started in the year 2014

Test Case - 2
User Output
Enter the text with @ at end : CodeTantra received best Startup award from Hysea in 2016@
Copied text is : CodeTantra received best Startup award from Hysea in 2016
